### **Important Notice to Animal Owners Involved in the Show**

The Irish Shows Association would advise all animal owners who have their animals insured to have the insurance cover extended to cover them while showing animals at shows. We understand that it costs very little, or nothing at all, to do so, depending on who you have your insurance cover with.

If you are one of the few people who does not have cover, we would advise that you think about putting it in place for this purpose. It may well be worthwhile.

The reason for us giving you this advice is to protect yourself in the event of your animal lashing out and injuring someone or damaging someone's property. If that were to happen, and it is established that your animal was out of your control, you may be held fully or partly responsible for any injury or damage caused and may end up paying all or part of any settlement reached.

### Specific Requirements

#### Identification

All Sheep must be individually identified with plastic ear tags issued in accordance with the requirements of the National Sheep Identification System (NSIS) Movement Documentation. All consignments of sheep being moved must be accompanied by a completed dispatch document. Individual details of each sheep in the consignment must be recorded.

#### Flock Register

All movements of sheep to and from shows must be recorded in your flock register. Use event code "S".

Exports (to member states of the European Union including Northern Ireland)

All sheep must be accompanied by certification as laid down in Directive 91/68/EEC as amended. Organisers are advised to contact their Local District Veterinary Office well in advance of any show where sales may take place to determine the suitability of the show for exports (e.g. Premises and sheep status) availability of veterinary staff for export certification and to have the necessary arrangements put in place. Attendance of sheep from Scrapie monitored flocks at shows and sales in 2011.

#### Shows Between 1st May and 30th September

Sheep from Scrapie Monitored Flocks will be permitted to attend Agricultural Shows taking place between 1st May and 30th September, without restriction or separation from other categories of sheep.

#### Shows Outside of that period

For shows taking place before 1st May or after 30th September, sheep from Scrapie Monitored or Probationary Flocks must be separated from other sheep as follows:

- (a) there must be complete separation of Monitored/Probationary sheep from other categories of sheep at the show. Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the two groups
- (b) In locations where all the above may not be possible, the minimum requirement would be for separation of loading and unloading and also of penning areas. The two penning areas should be separated by a sheep free alleyway at least twelve feet wide. If only one show ring is available, the sheep from the scrapie monitored flocks must be shown first.
